

**Subject:** Prayer needed in the Grand Canyon

Dear friends,

We are very near the end of recording the entire Havasupai New Testament, and we need prayer.

We are down to the last 69 verses.

Twenty verses of that is in Colossians. The man who is recording that is only available on Monday and Tuesday afternoons.

Fifteen verses are a portion of Matthew 23. The man who is recording this chapter is celebrating his 76th birthday today. His work on this portion is really important, since it needs some editing and this is something at which he is very skilled.

And Scott is sick. It's "just" a cold, but it sounds like it is moving down toward his chest.

We were hoping to finish the recording this week and then return to Cottonwood.

Please pray for the Lord's healing for Scott, that we will be able to finish the recording, and that we will have the Lord's wisdom to know how to proceed.

Please pray too for our team here in Supai. In the past week, one of the ladies who works with me has been seriously ill. (As of last night she thought she was well enough to do some recording this morning). Another called in the night of July 4 to ask for prayer for her grandson who had an accident involving a firecracker. He did not seem to have any serious injury, but it is another reminder that the evil one does not want to see this project completed.

Thank you for standing behind us in prayer.

In His love,

Lynanne and Scott
